

SCIENCE GRAPHICS

- OVER 21,000 HIGH QUALITY IMAGES
- FREE INTEGRAL GRAPHIC VIEWER
- COPY AND PASTE INTO ANY APPLICATION
- PERFECT FOR VLE DEPLOYMENT & INTERACTIVE WHITEBOARDS

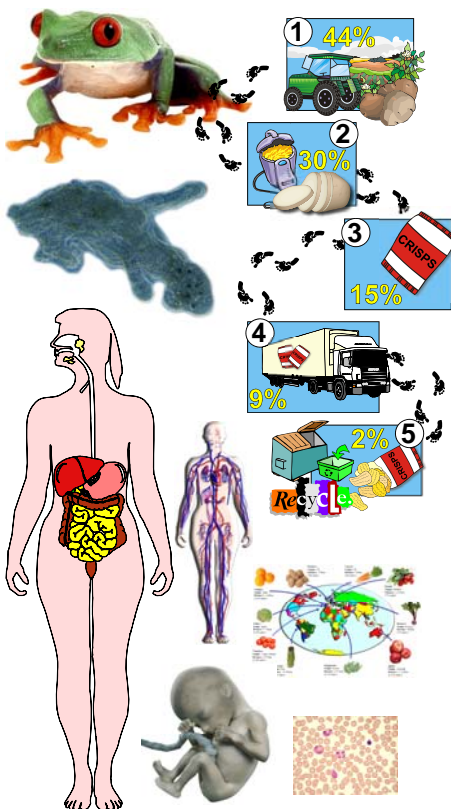

Over 21,000 quality graphics selected and created for Science are now available for standalone or network installation. It is easy to produce or enhance lesson/revision notes, presentations, worksheets, etc.

The integral graphic viewer (Windows only) is feature rich and allows you to easily view the images and then simply copy and paste your selection into any other application.

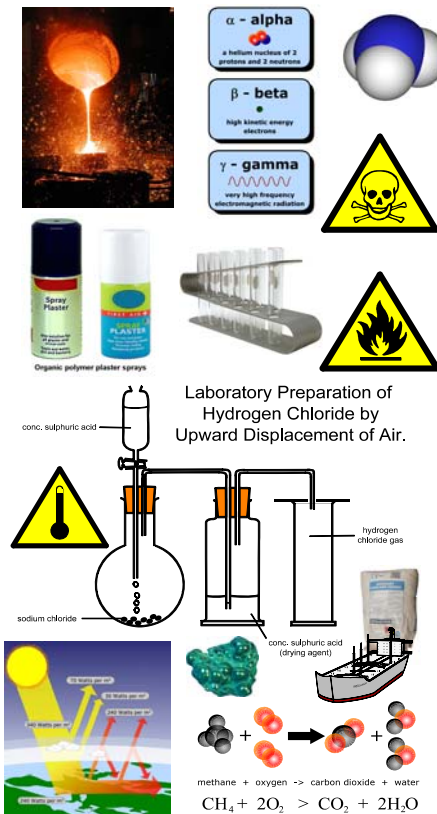

The viewer allows you to add 'hotspots' to any image which can be used for labelling or annotation. There are over 30 unique sets of images in the SSER educational graphics library.

g = gravity

potential energy = m.g.h

To every action there is an equal and opposite reaction. (The action and reaction act on different bodies)

All of our graphic collections are supplied with our own fully featured Graphic Viewer. View all the graphics in these outstanding collections by category or select images by searching using keywords. Selected images can then be copied via the clipboard into MS Word, Publisher, PowerPoint or any Windows program or simply imported into your favourite interactive whiteboard software. The Graphic Viewer has the facility to add annotations within rollover hotspots to any image - this is particularly useful when you project the image or view it through an interactive whiteboard. The DVDs contain high resolution photographs (jpeg files) and original vector diagrams as wmf (Windows Metafiles) - you can buy all three sets in the 'Super Bundle'.
