

e-Dictionaries (Science)

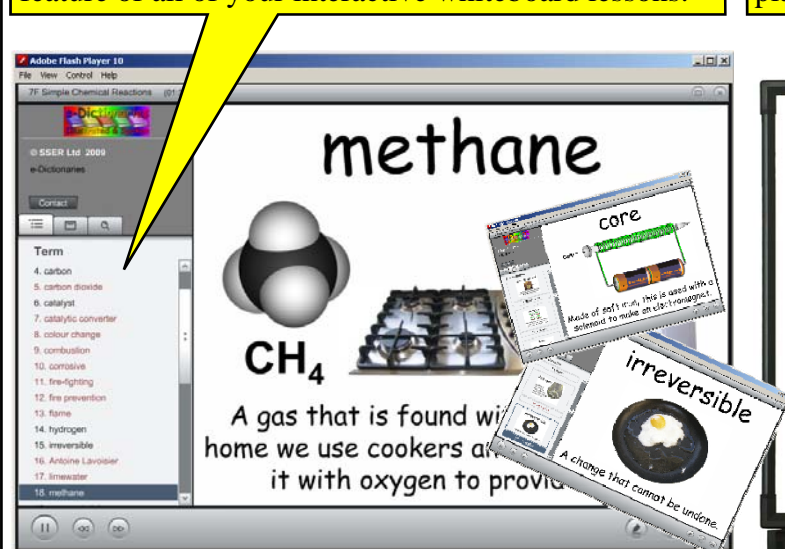

- **OVER 1,500 TERMS ILLUSTRATED & SPOKEN**
- **SUITABLE FOR INTERACTIVE WHITEBOARDS**
- **SUITABLE FOR DEPLOYMENT ON VLE**
- **INCLUDES ZOOM, PEN & HIGHLIGHTER TOOLS**
- **INTEGRAL POWERFUL SEARCH FACILITY**

This superb resource will enhance students' literacy and understanding by both visual and auditory means. The e-Dictionaries for Science have been developed to complement our market leading Wordwalls and use the same terminology and images - making them truly complementary. Each term is fully illustrated but is also spoken in a clear 'non-dialect' voice. Our e-Dictionaries come in flash format (swf) with an integral flash player. The e-dictionaries can also be incorporated directly into any lesson created by Notebook or ActivBoard software. The e-Dictionaries can even be deployed on the school network or VLE. The slides are staged so that the term appears first, then the image and finally the meaning - allowing careful narration and class discussion. From 'Acid' to 'Zygote' the terms are all relevant, clearly explained/ spoken and superbly illustrated. Our e-Dictionaries for Science (11-14+) offer comprehensive coverage of UK schemes of work.

All terms are listed alphabetically and are numbered for ease of reference. All terms can also be viewed in outline/thumbnail mode to quickly obtain a view of the whole topic glossary. Save the relevant e-Dictionary file into any interactive whiteboard lesson to make the e-Dictionary a core feature of all of your interactive whiteboard lessons.

Use the screen control to flip between views and to even run full screen. Integral tools, such as the pen, highlighter and eraser facilitate truly dynamic use on standard computers, digital screens and also all leading makes of interactive whiteboards and lesson creation software. The player can display at any size up to full screen.

**Licences
Single
site or
VLE?
Explained**

Single user licence allows you to place the resource on one school PC and one home PC - you can print off the WordWalls for use in multiple rooms. The site licence extends the single user licence to an unlimited number of standalone or networked PCs on a single school site. The VLE licence is additional to the site licence and allows the deployment of the e-Dictionaries onto the school's VLE.

Near instant search results provide the required term but also list all other topic slides where that word occurs in a context!
